### INSTALLATION AND MAINTENANCE PRODUCTS

Accessori e prodotti per l'installazione ed il mantenimento

Pribor i proizvodi za ugradnju i održavanje

*Anti-slip treatment of the surface of the edge or sandblasting is mandatory for commercial swimming pools (UNI EN 13451)*

*Per le piscine a uso commerciale è obbligatorio il trattamento antiscivolo della superficie dei bordi oppure la sabbiatura (UNI EN 13451)*

*Za bazene za javnu uporabu obavezna je protuklizna obrada površine rubnog kamena ili pjeskarenje (UNI EN 13451)*

*We recommend to use the same color plaster for an optimal installation of the edges or the paving*

*Per un'ottimale installazione del bordo o della pavimentazione si consiglia di usare lo stucco dello stesso colore*

*Za optimalnu ugradnju rubnog kamena ili poda preporuča se upotreba žbuke iste boje*

"ROCCIA" PAVING

"Roccia" reconstructed stone flooring is available with a sandblasted surface. The available colors are: white, yellow, pink, terracotta and gray. The floor recalls the structure and elegance of stone without the annoying inconvenience of retaining heat, since the reconstructed stone, thanks to its athermic property, does not heat up under the sun's rays.

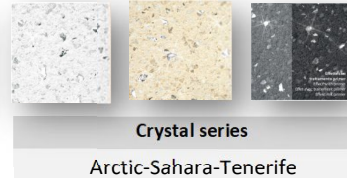

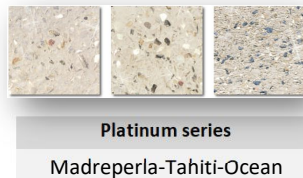

Pavimentazione in pietra ricostruita "Roccia" è disponibile con la superficie sabbata. I colori disponibili sono: bianco, giallo, rosa, cotto e grigio. Pavimento che richiama la struttura e l'eleganza della pietra senza il fastidioso inconveniente di trattenere il calore, poiché la pietra ricostruita, grazie alla sua proprietà atermica, non si riscalda sotto i raggi del sole.

New finishes also available: Platinum and Crystal.

Disponibili anche nuove finiture: Platinum e Crystal.
