Tailored to your dreams

CONCRETE MODULAR POOL FOR A QUICK AND EASY INSTALLATION EVERYWHERE

- Limited civil works
- Structure can be assembled in one day
- Structure comes in easy modules which are bolted together
- Panels are delivered ready to be assembled, bolted together and to the foundation
- Edge stones are cemented on top of the structure just as in any reinforced concrete pool

DESIGN DEDICATED TO ALL KIND OF CUSTOMERS

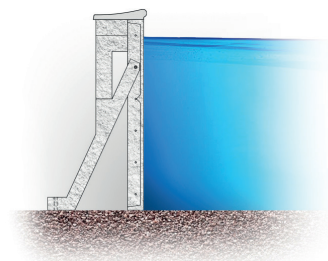

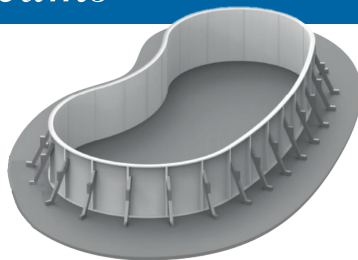

- It is a real concrete pool, but with the flexibility and easiness of a panel pool!
- Suitable for skimmer and infinity pool
- Suitable for waterproof layers such as liner
- Smooth surface for a perfect installation of the waterproof layer
- Easy mosaic application

FLEXIBILITY AND MAXIMUM SATISFACTION

- All geometries available on request
- Different panel measures available
- Total depth of the pool can be adjusted with gutters and support structures to reach different depths

CONSTRUCTION QUALITY

- **25 YEARS WARRANTY!**
- Superior quality compared to reinforced concrete
- Smoother surface compared to concrete
- No risk of corrosion
